

## Proposed Additional Ships for New Federation & Colonial Alliance

### Prelim notes:

Some of the listings may be inaccurate; updating is in progress. As mentioned, all carriers/tenders will be equipped with low-end fighters or interceptors and will be included in their BPV. Making this list helped me catch some errors, such as a Battlestar with 90 warp, but there might still be a few things to correct. For example, the TR beams don't always show up.

Added: 30 Fed units, 43 Col All units, PLUS

7 types of PFs for each, including Leader, Scout, Escort and FiCon. Feds have additional XPF to give the Bloodwing a launchable Javelin, which also exists as a small x-ship.
